German

## HOBBIES

Chess, Guitar, Basketball, Movies.

# Barkın Köroğlu

COMPUTER ENGINEER

## WORK EXPERIENCE

### Computer Engineer

Manisa Metropolitan Municipality / Manisa / Jun 2022 - Jul 2022

During my time at Manisa Metropolitan Municipality, I had responsibilities related to testing processes. Within this scope, I performed tasks such as preparing software test plans, creating test scenarios, executing tests, identifying, recording, and reporting errors.

## EDUCATION

### Bachelor's degree

Yaşar University / İzmir / 2023

Sep 2018 - Jun 2023

3.51/4.00

In my graduation project, I developed a web application that brings employers and job seekers together. The purpose of this application is to assist job seekers in finding the right job based on their skills and test results.

Throughout the development process of the project, I took on responsibilities in both the frontend and backend. On the frontend side, I designed the user interface using React technology. On the backend side, I used Firebase to manage the database and build the processing structure. Being involved in this project allowed me to enhance my skills in both frontend and backend technologies. Additionally, it allowed me to contribute to teamwork, thereby enhancing my leadership, problem-solving, and communication skills.

### High school diploma

Hasan Türek Anatolian High School / Manisa / 2017

86/100
